CSC 370 Group 3
Weekly Meeting: October 19th 2016

- Opening:
    - Established who's here, and how long this meeting will go for
    - Attendance: Everyone here except Devon (Devon works, is expected)
- Next meeting:
    - Discussion/confirmation of our next meeting, Thursday at 330 with Lloyd to discuss
    - Determined attendees: Zane, Bernice, Todd (30 mins), Wayne (30 mins)- Devon tbd
- Discussion of use cases from previous class:
    - Comparison of our previous understanding of uses cases with our current understanding - most group members were confused on Monday's class
    - Analysis of example use cases (for our client, St Jude's) written by Devon:

Use Case A: Cook makes food

- *Cook reads chart in regards to allergies*
- *Cook makes food in bulk*
- *Cook separates food onto plates?*

Use Case B: Dietary Aide gathers Menu choices

- *Dietary Aide visits each table/patient?*
- *Aide obtains menu choice per patient*
- *Aide records response on chart…?*
- *Aide returns to cook*

Use Case C: Dietary Aide delivers food

- *Aide collects plates and places them onto cart (for each table)*
- *Aide delivers cart to table and delivers food to patients*
- *Repeat for each table*

- Writing of a fourth use case, discussion of what it should look like in comparison to previous:

Use Case D: Nurse Updates the Chart

- Nurse determines that patients information needs to be updated
- Nurse logs in and changes information
- Chart is reprinted per use (beginning of day, before meal, etc)

- Discussion of group website, establishing information to be added:

- - Bios: Graeme (needs updating), Zane (needs editing)
  - Photos: Graeme, Devon
-
